

SO SCHMECKT LEBEN

Safe hospitality at DAS MARENT

Dear guests!

You are certainly looking forward to your well-deserved holiday with us! During your stay, safety is our top priority! We do everything possible because the health of our guests and of course of our employees is very important for us. We are well prepared for the coming winter season 2020/2021 and we hope that you can enjoy your holiday with us again according to the motto "**SO SCHMECKT LEBEN**".

We would like to inform you about the "**SAFE HOSTING FRIENDSHIP**" at **DAS MARENT**. In general, we adhere to the applicable hygiene measures in all areas. Frequent disinfection and ventilation in all rooms is strictly enforced! Various disinfectant dispensers are available we also have facemasks in stock. Our employees are well trained and will answer your questions!

In order to guarantee the necessary and legally required safety distances between the tables in the hotel restaurant, we have given a lot of thought to this. "Gustieren" between plastic partitions - for us no option! To be honest, we would like to spare you this measure and have found a great way to maintain the cosy atmosphere in the restaurant. However, read for yourself. . .

. . . The start in the morning

As usual, you will enjoy the Etagerenservice and the freshly prepared egg dishes, which you can order from the menu. The remaining ingredients for a balanced breakfast can be found as usual at the breakfast buffet, where we appeal to the personal responsibility of the guests to keep the intervals. Moreover, that this is also possible without any problems, you can appear for breakfast in 3 sessions.

1. Seating 07.00 -08.00 am

2.-Seating 08. 00-09. 00 am

3. Seating 09.00-10:30 am

The registration for this takes place the evening before at the station waiter! . . .

...Dinner in the hotel restaurant

We also provide a safe and comfortable ambience in the evening.
Enjoy the freshly prepared 5-course dinner menu of the MARENT brothers
in 2-Seatings

1-Seating 6:30 pm- 8:15 pm

2-Seating from 8:30 pm

We would be happy to take consideration for families with small children.
If desired, these can also appear for dinner at 6.00 pm.

Wellness and pool area

In the sauna/steam bath, keep a distance to your seat neighbours (at least one sauna towel width) and avoid direct skin contact. If the sauna is already very full, you should rather go to another cabin. Showers before the start and hand disinfection are required.

Regular checks and cleaning by our staff are a matter of course!

We want our guests to have a pleasant stay, with as few restrictions as possible!
Our tourist office in Serfaus-Fiss-Ladis also cares about your well-being!

An already developed safety concept for the ski region can be found at

<https://www.serfaus-fiss-ladis.at/en/Live/Current-Information-Summer>

We hope that we can give you a piece of security and look forward to your visit!

Should there be any changes or policy loosening up in the meantime until your stay, we will inform you immediately!

We look forward to seeing you!

Christian and Alexander Marent with team
